Name:

      The goal of this project is to demonstrate an in-depth understanding of one topic. Focus on 4 or more "vocabulary and key concept" words from your chosen topic. Do more than just put the words into your project- use them in context, explain, define and give examples. Using more than 5 terms is not necessarily better if you take the time to show what you know in depth.

# Salmon Final Project

<u>Topics:</u>
_____Life Cycle of Salmon
_____Food Web
_____Salmon Habitat Needs
_____Raising Salmon in the classroom
_____Water Quality Testing for Salmon Health
_____Migration of Salmon
_____Salmon Anatomy
_____Salmon Types

<u>Additional Research Topics (need to do some extra research at home)</u>
_____Hatchery vs. Wild Salmon
_____Cultural connection: History, Native American life, myths, etc.
_____Conservation
_____Salmon Fishing

-
